UC, I have worked in the wording Ryan Rockabrand mentioned yesterday and Pat Hodgins helped clarify for me. With these slight but significant changes I still felt it was important to change the date on this document to make sure the final document is clear.

To help everyone along, the highlighted version of the document has the changes that were made immediately after the UC meeting yesterday (in yellow highlight) and the wording that Ryan/Pat helped with (highlighted in green). I also attached the comments document which reflects the last comment/change.

If we have worked out all the kinks, I am hoping this is the final version. Please review and reply back to all if you approve this document "Phase III: Guidelines for Maintenance and Monitoring" document dated 29 July 2015.

Thanks again for all of your patience and dedication in seeing this through!

Tom
